

Dear Parents:

Chickamauga City Schools uses Infinite Campus as their Student Information System. You will be able to view your child's grades, attendance, and messages from the teacher and school. Parents had this opportunity with our old system as well; however, we believe that the new system will be easier for you to navigate and use. We delayed opening the portal to parents to ensure that the data we have is accurate. As we progress, there will be "tips" available on our website at the Infinite Campus link to assist you.

All students and parents will have their own Portal Account. Student accounts have already been created using the following "Student Number aka Lunchroom Number" as the username and the "<first name initial><last name initial><birthdate MMDDYY>" as the password. Below you will find the directions to create parent accounts. After you have created your account please take a moment to update your family information and update non household emergency contacts.

As parents, you will be given a "Portal Activation Key" number to access your child's data on our website through Infinite Campus. You will have only one "Portal Activation Key" number to access any of your child(ren)'s data who attend Chickamauga City Schools. You will be able to see your child's grades, attendance etc.

Please follow the directions below to access the portal and receive a "Portal Activation Key." You will use that number to sign on to the portal and set up your parental account.
