Teacher's Note:

Happy New Year! I hope you all had a peaceful holiday with family and friends. I am so excited to see the students today. It is hard to believe that this first grade year is halfway over. First grade is a special year in a child's development. The first semester is filled with teacher modeling, academic review, and just getting to know what is expected. Grading for the remainder of the school year will be based on the student's ability to work independently.

Our story this week is "An Egg is an Egg." We will have testing on Thursday. The students need to be reading daily.

I want to thank all of the students and parents for the Christmas gifts that I received this holiday. You truly made my holiday special!

Important Dates
