### Notes from the teacher:

#### Happy Monday!

I can not believe we just have one more Monday after today. Mrs. Brooks and I enjoyed your children so much this year! We have loved watching them learn and grow, and now it's time to send them to first grade. As much as I hate to let them go I know they are going smarter, and more confident than they came to us.

I'm also very proud of you moms and dads! What a strange year to send your kids to kindergarten! Thank you for trusting us with your precious children! Hopefully, next year you will be able to walk your children in and come to parties and programs.

We will have a sweet little program Friday. We will video it and send out links.
